Investment Funds Programmes
2014-2020
Co-funded by the Irish Government
and the European Union

The European Agricultural Fund
for Rural Development
Europe investing in rural areas

Local Action Groups (LAGs) & Implementing Partners (IPs) Overview

Decisions on LEADER funding applications are made at a local level by a network of 29 LAGs. They approve applications that align with the objectives of their Local Development Strategy, which is developed in consultation with the local communities. Local Development Companies in each area are responsible for the day to day management and co-ordination of the LEADER Programme, either as Implementing Partners (IPs) in a wider LAG or by acting as the LAG itself. Applications for LEADER funding are made to these Local Development Companies. Project Officers within these companies are the first port of call when thinking about applying for LEADER funding.

Contact details for all Irish LAGs and IPs are included within this document. This information can also be found in an interactive map of all LAGs and IPs located throughout Ireland featured in the LEADER section of the NRN website. This 'one-stop-shop' database provides those interested in accessing assistance under the LEADER Programme 2014-2020, with convenient access to information about the Local Development Strategy and geographical coverage of their LAGs as well as contact details, such as email address and phone numbers. Links to each of the LAGs and Implementing Partner's websites and social media pages are also embedded into this map.
